

Mohanpathi S

<https://www.linkedin.com/in/mohanpathi/> • +918883113324 • mohanpathi.dev@gmail.com • Coimbatore, India • [github](#)

Tech-agnostic engineer with 2+ years of experience in **full-stack web application development** at scale. Skilled in gathering requirements, collaborating cross-functionally, and executing projects efficiently for startups.

SKILLS

- **Programming Languages:** JavaScript, TypeScript, Python, Go, Solidity.
- **Frontend Development:** React, Redux, Angular, HTML5, CSS3, Tailwind CSS, Shadcn UI, Responsive Design, Progressive Web Applications (PWA).
- **Backend Development:** Node.js, Express.js, REST APIs, Django, MongoDB, Postgres, GraphQL, DynamoDB, Firebase.
- **Cloud & DevOps:** AWS Services, Azure, CI/CD Pipelines, Docker.
- **Tools & Libraries:** Git, Redis, Payload CMS, HD keys (Hierarchical Deterministic), Apache Kafka, Pinecone, Jest, Swagger.

WORK EXPERIENCE

Optisol Business Solution, India

Software Engineer • Chennai, India

02/2025 - Present

- Leading the development of a full-stack, **enterprise-grade solution** for a financial services client, integrating GenAI to automate and streamline credit report tracking for businesses.
- Architected and implemented secure backend services, ensuring data integrity and compliance with modern enterprise security standards and best coding practices, enabling **end-to-end protection** of sensitive financial data.
- Integrated **GenAI services** for intelligent data extraction, summarization, and anomaly detection in financial documents, enabling advanced insights and faster credit evaluation.
- **Recognized with a Spot Award** for delivering high-impact features and driving innovation in financial automation.

Clar Technologies, India

Software Engineer • Coimbatore, India

06/2023 - 02/2025

- Collaborated with a **multinational team** to build solutions for **deep-tier financing**, and **inventory tracking** using enterprise blockchain technology, reducing **transaction costs by 80%** through the adoption of **Layer 2 solutions**.
- **Engineered and deployed full-stack blockchain solutions** for supply chain finance, including **DLPC (Digital Ledger Payment Commitment)** systems, enabling secure, tokenized financial transactions across global trade ecosystems.
- Collaborated on blockchain-powered application for a **Fortune 50 tech company** in support of a **habitat restoration project** in the United States, ensuring transparency and efficiency.
- Designed scalable backend architectures with Node.js and ExpressJS, integrating RESTful APIs, Redis caching, and async processing for blockchain event handling which boosted API performance by 35%.
- Implemented secure mnemonic isolation frameworks with **AWS Lambda** and Secrets Manager, safeguarding cryptographic keys and enabling reliable transaction signing for blockchain-based operations.
- Developed an SDK and Node CLI to facilitate seamless communication and collaboration between backend systems and blockchain technologies, increasing **code maintainability by 60%** and improving system interoperability.
- Engineered a developer-focused chatbot UI utilizing Pinecone as a vector database to train the model, simplifying platform integration for **external developers by 80%**.
- Established **automated CI/CD pipeline** using Jenkins and Docker, reducing **deployment time by 70%** and eliminating manual errors.

PROJECTS

- **Attestify** – Created a **TypeScript SDK** for managing **digital payment commitments** using **HD wallets** and **cryptographic attestations** following **BAFT Digital Ledger Payment Commitment** protocols. Integrated secure **signature verification** and **attestation lifecycle management**.
- **Chainly** – Built a **Workflow Orchestration SDK**, automating complex workflows, managing task dependencies, and enabling **real-time tracking** to streamline task execution and business logic.

EDUCATION

Master of **Computer Application** • Kumaraguru College of Technology, India • 2022 - 24

- Achieved a CGPA of **8.8/10**, graduating with **First Class Honors**.
- Honored **twice** with the prestigious Mahatma Gandhi Award, bestowed by KCT in recognition of academic excellence as a top rank holder; served as **Technical Ambassador of the Department**.

Bachelor of **Computer Application** • PSG College of Arts and Science, India • 2019 - 22

- Achieved a CGPA of **8.7/10**, graduating with **First Class with Distinction**; Elected as **Secretary of the Department**.
